

Education Materials for Public Works Programme Projects

Hong Kong

**Completion Date:**

1996

Client:

Works Branch, HK Government

Service Provided:

Enhancement of Management Capability

This assignment required the development and production of extensive learning materials for all the works departments in the training of their staff in the project management approach to delivery of public works programme projects. The materials comprised a technical manual, four open-learning workbooks, a study guide and both facilitator and workshop participant workshop materials.
